

Bibi Alli, July 4<sup>th</sup>, Section 1.

From last week:

- [x] research different frameworks
- [x] decide whether or not to use
  - \* decided to use HTML
- [x] begin website development for the homepage
  - \* started website
  - \* received logo from Kristina
- [x] weekly team meetings on Tu/Th
- [-] discuss whether or not after user clicks 'Enter' on the 'Make a Match' page, if it will lead to a new page
  - \*still in discussion about this
- [x] discuss further on Log In/Pw feature
- [x] assign upcoming week tasks

Added mid-week:

- [x] team set up Slack on their devices to easier communicate with each other
- [x] presented to each other what we have completed so far

For this week:

- [ ] work on the 'About Us' website page
- [ ] work on what content should be visible to users when they are on the homepage
  - o Miguel found an interesting slide show about user appeal that was shared with the team
